Ridge Chestnut

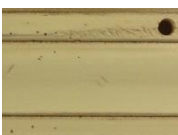

Painters Black

Canvas White

French Blue

Normandy Sand

Painter's Ridge Furniture represents casual sophistication and our items are offered to you with a choice of any of our premium finishes. We are proud of our use of solid wood and occasionally selected veneers to manufacture our furniture. All items in our line are finished in a warm distressed manner. Essentially, we want to have a great look for the money.

We gladly accept your custom considerations and we work very hard to ship all orders in a timely manner. Painter's Ridge Furniture can be used in any home and is currently being displayed and shown by a number of fine stores and design firms.

Please let us know when we can provide you with additional information or catalog materials. You are encouraged to visit our website:
